

Prevent COVID-19:

Screening Checklist – Recommendations for SNF Staff / Visitors

ALL individuals (employees, visitors for exigent situations, government officials, vendors) entering the building should be asked the following questions:

Staff Screening:

Staff should be monitoring twice daily, at least 8 hours apart, with one immediately prior to the start of their assigned shift.

1. Prior to the start of shift, check:

- Temperature – must be < 100.0° F
- New onset or changed Cough
- New onset or changed Shortness of Breath
- New onset or changed Sore Throat

Visitor Screening:

1. Ask the individual if they have symptoms of a respiratory infection?

**If YES, restrict visitation

- Fever (checking a temperature is not necessary)
- Sore throat
- Cough
- Shortness of breath

2. Ask the individual if they have:

**If YES to any, restrict visitation

- Travelled internationally within the last 14 days to countries or areas where COVID-19 cases have been confirmed
- Have had contact in the last 14 days with someone with a confirmed diagnosis of COVID-19, is under investigation for COVID-19, or are ill with a respiratory illness

Remind all to wash their hands or use ABHR throughout their time in the building and not to shake hand, touch or hug individuals during their visit.
